Cause**

India Foundation
for children Education and Care

India Foundation was founded in 2006 in the USA, by an enthusiastic group of Indian-Americans, who passionately believe in the goal of bringing social and economic transformation in India through education. We are making a tremendous difference in the life of poor children and uplifting the standard of living of poor women in India.

Our Mission is to eliminate poverty in India through education of underprivileged children and to promote the standard of living of poor women through empowerment. **Our Vision** is a society where poor, deprived, and underprivileged children in India have the opportunity to improve their status and lead a life full of hope and dignity.

One Laptop Per Child (OLPC) Project Deployed at Kikawali, Rajasthan, India

One Laptop per Child Program (OLPC)

A potent learning tool created expressly for the world's poorest children living in its most remote environments. OLPC with the help of IFCare has distributed 40 in three different villages.

Give today to get real joy in your own life!

Atma Jyoti Vikas Samiti School is supported by IFCare. The Mission is to care for and educate blind girls, enabling them to be independent and to lead lives of dignity. 55 girls, from 5 to 25 years of age, reside and study at the school. For more information visit www.atmajyotischool.org
